SUBPART 101-11.2 CREATION OF RECORDS

101-11,202-2(5)

Subpart 101–11.2—Creation of Records

§ 101-11.200 Scope of subpart.

(a) Sections 505 and 506 of the Federal Records Act of 1950 (44 U.S.C. 395, 396) place upon the Administrator of General Services and the heads of Federal agencies responsibility for the development and implementation of standards and programs for the economical and efficient management of Federal records. Specifically, the Act requires that each Federal agency provide for effective controls over the creation of records, including the making of records containing adequate and proper documentation of agency administration and operations.

(b) Effective controls over records creation must encompass all types of records at all levels of organization, central office and field. Specifically, there are four types of records which require continuing attention. These types—correspondence, reports, forms, and directives—are common to all agencies. Generally these records are created on sheets of paper, but they may also appear on punch cards, film, tape, and other media.

§ 101-11.201 General provisions.

§ 101-11.201-1 Agency action.

(a) The head of each Federal agency, in meeting the requirements of section 506 of the Federal Records Act of 1950 for controlling the creation of records, is expected to observe the program responsibilities and standards set forth in this Subpart 101–11.2. These responsibilities and standards are basic to the Government-wide control of records creation; however, the application of the program responsibilities by individual agencies may be influenced by factors such as agency size, organization, mission, and paperwork activity.

(b) Each Federal agency is expected to:

(1) Assign to an office(s) of the agency the responsibility for the development and implementation of agencywide management programs for correspondence, reports, forms, ADP records, and directives and for adequate and proper documentation. When organization arrangement, size, or complexity requires, actual control may be established at bureau, service, or office level. Programs at these control points

will operate within the framework of the overall agency plan.

(2) Issue a directive(s) establishing program objectives, responsibilities, and authorities. A copy of each directive issued (and subsequent amendments of supplements) should be readily available for inspection by the National Archives and Records Service, GSA.

§ 101-11.202 Adequate and proper documentation.

§ 101-11.202-1 Statutory responsibilities.

§ 101-11.203-2 General requirements.

Positive action is to be taken to prevent the making of unnecessary Existing and proposed office records. procedures are to be subject to continuing examination by agency management with a view to determining their effect on recordmaking. Where justified, such procedures will be revised, consolidated, or eliminated to keep recordmaking to a minimum. In addition, the detailed program requirements for correspondence, reports, forms, directives management, and ADP records management set forth in the following sections of this subpart are to be observed.

§ 101-11.206 Correspondence—agency program responsibilities.
